

Name – Consultant Profile			
	<p>Georg Pfreimer is an independent consultant, management trainer and coach since many years.</p> <p>He started his career as a consultant after years in industry with a focus HRD. The last 5 years as a department chief in a German affiliated group, the market leader in the paper industry.</p> <p>George’s approach in consulting, training and coaching is based on systemic concepts, models and processes and is focused on personal development, change management and all issues related to. The paradigm of the learning organization of Peter Senge in the 90ies and his well-founded knowledge and skills in NLP-methodology (educated trainer of the International Association of NLP, USA) determine his style in delivering workshops, trainings and coaching. Also the principles of humanistic psychology are strongly influencing his way of working with people and systems/organizations. Above all may be the trust in people’s self-responsibility the core-belief of George’s mental model as a consulting professional and finally as a human being.</p> <p>So the principle „the solution is much more important than the problem“ will describe his style also very well.</p>
